AMANDA VINCENT

Saving Seahorses

Amanda Vincent/Project Seahorse

The first biologist to study seahorses underwater and to work for their protection, Vincent is a leader in marine conservation research and policy. Her Project Seahorse team drove the creation of protected areas and the first global export controls for marine fishes.

Ingenium, Department of Fisheries and Oceans and Canadian Commission for UNESCO are committed to encouraging and empowering women and girls in science, technology, engineering, and math. Learn more at: ingeniumcanada.org/womeninstem/
